TOM ROGERS FROM HERE. He Corraled a Burgiar in Hin Hous at Wichita,

tehita (Kansas) Eagle, Dec. 28th

There was great excitement on North Market street at 6 o'clock last evening.
The cry of burglar startled the entineighborhood and disturbed the Christmas reminiscences of friends and family

on a neighbor, and, of course, did no on a neignoor, and, or course, did not think it necessary to lock the door. Her husband came back from a visit down town during her absence and sauntered into the house as leisurely as usual.

His wife did not meet and greet him as is her custom, but instead a rusty, huriy burgiar did, and you may he assured that Tom Rogers's Kentucky blood was stirred. He rushed for his sevolver, but the burg lar got possession of it first and owned the ficid. The burgiar, in an effort to get away without unnecessary bloodshed tried to retreat by the back door and ra into a room instead. Mr. Rogers shut him in and locked the door and then lust ily shouted for his neighbor, Dr. Ailen, to come to his assistance. The Doctor die not hear him, and then Mr. Carpenter came along. He asked Mr. Carpenter to stand guard while he went to Dr. Allen's where he rang the doorbeil vigorously and shouted for dear life. Dr. Ailen and his son Charlie, all unarmed, strengthened the guard. Mr Rogers then went across to Dr. Oidman's and not only called up he police, but culisted the Doctor also a memher of the guard. He then ran the County Jail, and by the time he cam hack with Sheriff Royse, Officer W W. Hains had arrived, but he too was un armed, and the hurgiar still held the castie. When Sheriff Royse arrived on the scene adequately equipped to push the slege the burglar had been captured by Doc Root. He is now in the County Jail, and there is hardly a doubt but what he will spend next Christmss and a great many succeeding ones in the peniten

#### WE'RE FOR AMERICA®AMERICANS

THE LEDGER hopes that the Republican ongress will davise some means to get our gold back from England hefore the "wah" begins!

THE Times-Star is of the opinion that the best measure for permanently pro tecting the gold reservs will be one that will also protect our industries.

MR. CLEVELAND, now that he has d clared against Engiand stealing Vene-zuela's gold mines, onght to declare against her theft of America's trade.

MB. TURNEB, a Georgia Democrat, dis cussing the Republican financial bill in the House a day or so since, said Mr. CARLISLE was "the greatest Secretary of the Treasnry since the day of ALEXANDER Hamilton." Great heavings! Won't Hamilton?" Great heavings! Won's somebody turn the hose on that fellow

WHEN the greenbacks were first issued the Democrats called them worthlee rags; then they called them the people money, and declared that the Government bonds should be paid with them new they lusist they are vampires de stroying the gold reserve. What next

THE population of England is 27.483. 490, of Wales 1,519,035, of Scotland 4,025,-647, and of the islands 147,842, a total of 33,176,014. In case of war between Great Britain and the United States the 4,704,750 lnhabitants of Ireland will also have to be reckoned with. The stion is whether Ireiand will be a recrniting ground for Engiand or for the United States.

ANOTHER \$100,000,000 will make the increase of the bonded debt in two years \$262,000,000-a slzable monument to the policy pursued by this "hasiness Admin-istration." Add to this a deficit of \$133,-000,000- hrought about hy spending that much more than the income of the Gov-erament—and what a beautiful "record" CLEVELAND, CARLISLE and their Cockney crowd have made!

MR. JAMES C. CARTER, the leader of the New York Bar, thinks that our Gov ernment should proceed slowly in the assertion of the Monroe Doctrine. "It is impossible," he says, "for any one Nation to create any right which did not exist before, or to affect the International law of the world." In other words, he doubts if we can, hy our own act, Impose restrictions upon European Nations in the matter of the extension of their possessions on this side of the Atlantic. But the thing is likely to be done, nevertheless.

THE Louisville Commercial says stop the continued and increased deficits, it is hardly probable that the President would take the responsibility to veto the measure. James Buchanan, his Democratic predecessor in the Pres idential office, signed the Morrill Tariff in a similar exigency, when Democratic Free-trads statesmanship had produced deficits which were steering us toward bankruptcy. President CLEVELAND will certainly endeavor to rise to the height ched by James Buchanan.

E of the provisions of the Republican blil providing for the issue of more bonds is that all bonds shall be first offered to the people of this country. That's the right sort of taik. In his las bond issue Mr. CLEVELAND "canudled" with an English syndicate, and they made several million dollars out of the deal, ay with British gold-bugs! Ameri-Christmaa. Come in and loo as can furnish all the money necessary, thing in our stock to suit you and they will do it if they are given the will do it if they are given the lity. Call for a popular loan—the from \$50 each up—and workto and working men will take at as they did Jar Coonk's 7-30 ving the war. It's time to quit the money-bags of England.

This Loudon Dally Nows Jays the state ent that the United States Senate will reject the Tariff Bill may reassure British manufacturers. How long, @ LORD will it be until Americans learn to log islate for their own country instead of inglelating for the benefit of British manufactnrera?

ADMIRAL MEADS said in an interview we are likely to engage la with Great Britain and that the first shot fired will sound the knell of the British Empire. According to the Admiral's figures, the American Navy wan twenty-seven of the thirty old fights in the war of 1812, and could do better now. The United States has fifty modern fighting ships, large and small, and in these times battle-ships can be bought ready made. Three hundred torpedo boats could be completed within six months. As for our coast cities, it must be remembered that during the Civil War a fleet of Iron-clads was held at bay by the comparatively inferior defenses at Charleston.

The wife of Dr. D. Robinson, a promi-sent iumberman of Hartwick, N. Y., was sick with rheumatism for fee mouths.
